June 9, 2025

To Whom It May Concern:

The Middle States Commissions on Elementary and Secondary Schools (MSA) is on schedule to accredit the Stemlab School, Inc, 001852922, One Mifflin Place 400, Cambridge, MA 02138 USA. The school is currently an applicant with MSA and will be a candidate as soon as they complete their application and host a candidacy visit by the MSA Staff. The school will then embark on a 12-18 month journey of self-study and host an accreditation validation visit.

If all goes well, the school will host their accreditation visit in the Fall of 2026 for an accredited status running from April 2027 – March 2034.

MSA is one of six regional accrediting agencies in the United States with over 3200 member schools in the United States and more than 117 countries around the world. MSA is a part of the International Alliance of School Accreditors, along with the Western Association of Schools and Colleges (WASC) and the New England Association of Schools and Colleges (NEASC). Accreditation by any U.S. regional accrediting agency is recognized in any region in the United States.

MSA is recognized by the U.S. Department of Education and works closely with the U.S. State Department on the accreditation of international schools attended by the diplomatic corps and U.S citizens living abroad.

Please visit our website at www.msa-cess.org for any additional information regarding our accreditation processes and protocols.

Sincerely,

A handwritten signature in black ink, appearing to read "Daniel Rufo".

Daniel Rufo
Senior Associate Vice President, Accreditation
